

Private Pilot

Ask about a Discovery Flight to get started!

Learn a permanent new way to go places and have fun!
Wanting to learn means you **can** do it!

The first milestone, achieving your **First Solo**, involves learning basic operations and maneuvers around the local area.

Then it's on to learning how to fly **cross-country** to other airports, flying at **night**, and preparing for the checkride.

Your training includes customized training:
*One-on-one instruction to ensure quality
*All FAA-required flight and ground training
***Start your career! Access to Kansas State online gets you hired faster!**

Cessna Pilot Center - Internet-Based Training lets you set the pace!

Whether starting fresh or picking up after leaving off, we tailor it to you!

Opening the door to the enjoyment as a Private Pilot can cost as little as \$9,500.

*Two thirds of the world is covered by water, one third is covered by land.
All of it is covered by air.
Time to learn to fly!*

Why Us?
We are one of the best choices out there!
Flip to see!

After you complete the checkride (Practical Test), you will be free to enjoy a lifetime of opportunity to slip the bonds of gravity...

Congratulations!

Actual training times and costs are dependent on the individual and the training schedule. We'll keep you informed and answer any questions you may have throughout your training.

4766 E. Falcon Dr.
Mesa, AZ 85215

Open 7 days/ week: (480) 832-0704 (800) 237-2359

Find us on Facebook!

Why us?

**Any instructor can train you
under Part 61, but how well?**

Part 141 FAA-Approved means:

*** FAA specifically checks us**

****Flexible training, with quality & safety***

-Instructors work as a team

**-FAA checks the aircraft & records
regularly!**

*** Better maintenance & insurance
from a full-service company**

Save time & money!

Private Pilot: 5 hours less = \$500-\$800

(Pt 61 schools would need to be \$15/ hr cheaper)

Instr./ Commercial: 40-50 hours less!

= \$5000 - \$9000 saved!

(Pt 61 schools can't touch this with any combo of planes & simulator)
