

# Complex Endorsement

Bigger...Faster...Higher...Further !!

First: learn about new systems and engines you'll see on different kinds of planes.

Which to Fly First?: If you don't have any Piper time, or Garmin 430/650 time, it's often easier to start with a short Warrior flight to get used to the general layout. Then the prop & retractable-gear will be the only new things in Complex training

**Your training includes customized training:**

- \* Can be completed in a few days!
- \* One-on-one instruction to ensure quality

Need a BFR or to expand your spectrum of rental abilities? This is a great way!

Training can be expanded for Instrument pilots & IPC's.

No FAA-minimum times & no checkrides!  
Complex Endorsement can be as little as **\$1,100.**

Soon you'll be legal to fly planes with over 200 hp and retractable-gear.

*Actual training times and costs are dependent on the individual and the training schedule. We'll keep you informed and answer any questions you may have throughout your training.*

4766 E. Falcon Dr.  
Mesa, AZ 85215
